Report

1. Collaboration with local governmental institutions, such as health authorities, education authorities, and public health department, for wide coverage of CHD screening project involving all elementary schools in the region of Yogyakarta.
 - The next step to be taken after performing pilot project screening of CHD in Kanisius Elementary School on August 2015 is to widen screening coverage involving all elementary schools in the region of Yogyakarta. For this purpose, team from Universitas Gadjah Mada has cooperated with local governmental institutions, such as health authorities and education authorities. Team from Universitas Gadjah Mada also collaborated with public health department for better screening administration procedure.
 - Both local governmental institutions, health authorities and education authorities in Yogyakarta, supported the wide coverage of CHD screening project in all elementary school in the region of Yogyakarta.
 - The next plan is to have a meeting with Governor of Yogyakarta in order to manage the permit for wide coverage of CHD screening project in Yogyakarta.
2. Discussion on detail itinerary of team from Universitas Gadjah Mada visit to Kobe, Japan on January 2016.
 - Team from Universitas Gadjah Mada will visit Kobe on January

2016 to attend “The 26th Annual International Symposium on Congenital Heart Disease in the Adult”, in which the team will present their current result of the ongoing study.

- Apart from attending the conference, team from Universitas Gadjah Mada will also discuss further about the ongoing study “comparison of ASD-PH in Kobe University Hospital and Dr. Sardjito General Hospital Yogyakarta”.

3. Discussion on progress report of ASD-PH project

- In this meeting, they will discuss about the timetable for manuscript writing and schedule for paper submission.
